## 1. Introduction

### 1.1. Purpose

The Software Design Description (SDD) contains all specifications obtained in the Software Requirement Specification (SRS), and the programming requirements for the software to be develop. This document contains all the necessary information needed by a developer to adequately implement the software product described by the design requirements listed in this document. It also serves as a structured guide of all functions and how would be programmed.

This document is intended for software developers. Containing technical details it translates the customer's requirements to detail programming specifications for a full guided direction of what is specified by the customer.

### 1.2. Scope

With all the costumer specification known it is to create a document that will guide the developer throughout every step of the implementation of the website. This document provides the webmaster a full guided into the development of "VESA CLARO". The product consists of a website with all the necessary information about VESA Cellular & Internet Services and all the services they offer. The main functions of the product are:

- Provide information of available products.
- Provide information about current cellphone plans.
- Locations of VESA Cellular & Internet Services kiosk.
- Contact information about each kiosk.

In terms of the system, the product will be created in HTML, several internet programming languages and a database.

### 1.3. Definitions and acronyms

Abbreviation	
Term	Definition
e.g.	For example
etc.	etcetera
sec.	second

**Table 1.1: Abbreviations**

Acronyms	
Term	Description
DBMS	Database Management System
E-mail	Electronic Mail
HTML	Hypertext Markup Language
Http	Hypertext Transfer Protocol
LD	Long Distance
MMS	Multimedia Message Service
SDD	System Design Document
SMS	Short Message Service
SRS	Software Requirements Specification
URL	Uniform Resource Locator
USA	United States of America
VESA	Vesa & Santiago
VLL	Vega López López
WWW	World Wide Web

Table 1.2: Acronyms

Term	Definitions
Customer	Used to refer to a current or potential buyer or user of the products of an individual or organization, called the supplier, seller, or vendor.
Database	Consists of an organized collection of data for one or more uses.
Guest	
Kiosk	A booth with an open window on one side used to sell small stuff, its used commonly in malls.
Long Distance	A telephone call made outside a certain area, usually characterized by an area code outside of a local call area.
Plans	
Product	A thing produced by labor or effort or the result of an act or a process.
Review Team	A specific group that posts its opinion about an specific article. In this case is the team that posts the reviews from the cell phones.
Reviews	An evaluation of a publication about something in specific. Can be refered to an movie, a software, a game etc..
Roaming	The extension of connectivity service in a

Term	Definitions
	location that is different from the home location where the service was registered.
Update	Modernize or bring up to date
Upload	Can refer to the sending of data from a local system to a remote system such as a server or another client with the intent that the remote system should store a copy of the data being transferred, or the initiation of such a process.
User Comment	The opinion from the customers or guest of an specific topic or product.
Vesa Claro	Web-page from Vesa Cellular created by VLL Internet Service.
VLL Internet Services	Vega Lopez Lopez company that's has the purpose in the develop of web page according with the customer specification and requirements.
Web Master	Person responsible for maintaining one or many websites. The duties of the webmaster may include ensuring that the web servers, hardware and software are operating accurately, designing the website, generating and revising web pages, replying to user comments, and examining traffic through the site.
Web Page	Document or information resource that is suitable for the World Wide Web and can be accessed through a web browser and displayed on a monitor or mobile device.

## 3.1. General Customer Diagram

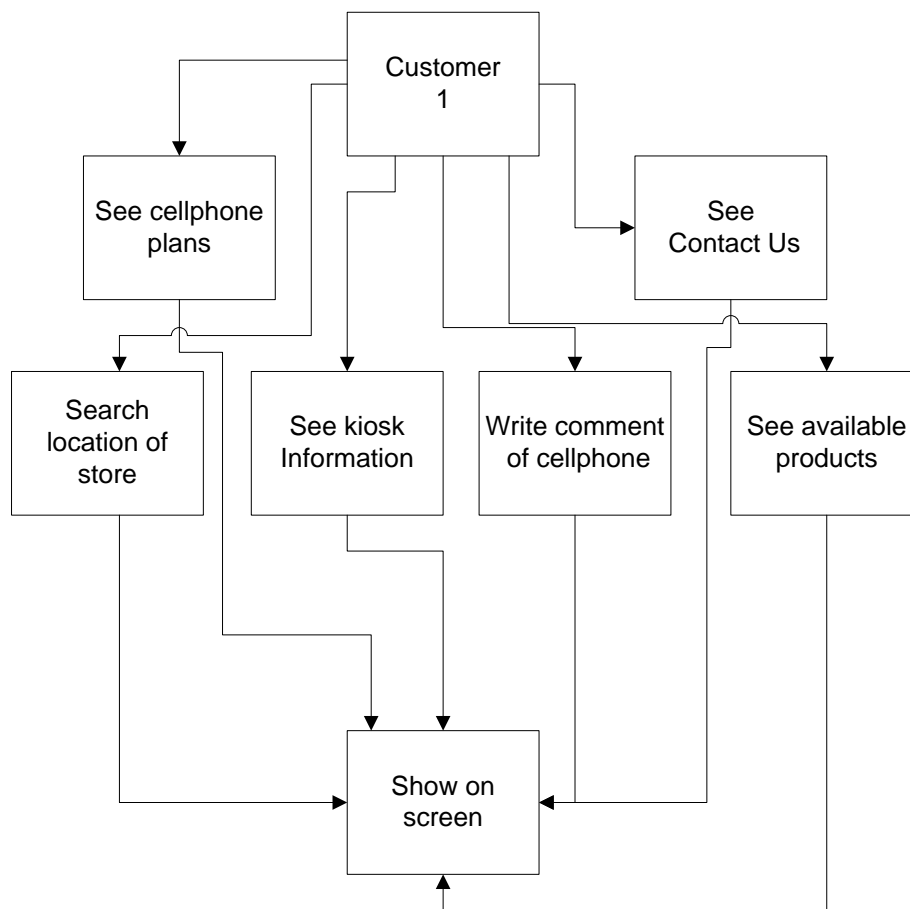

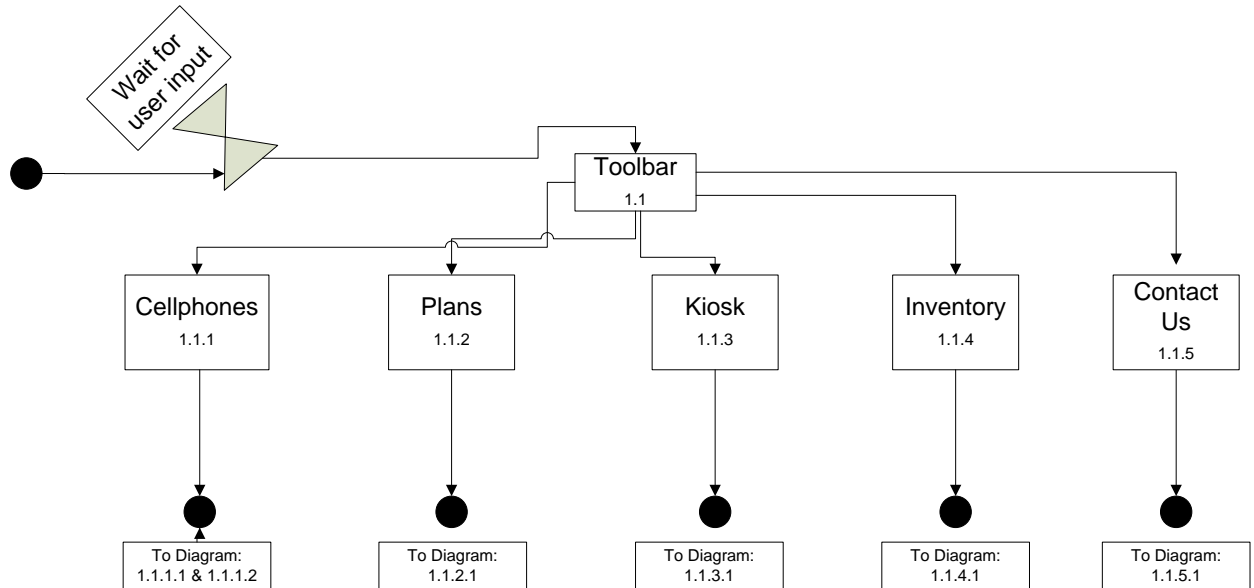

Figure 1(Figure 0.1)

### 3.1.1. Toolbar Activity Diagram

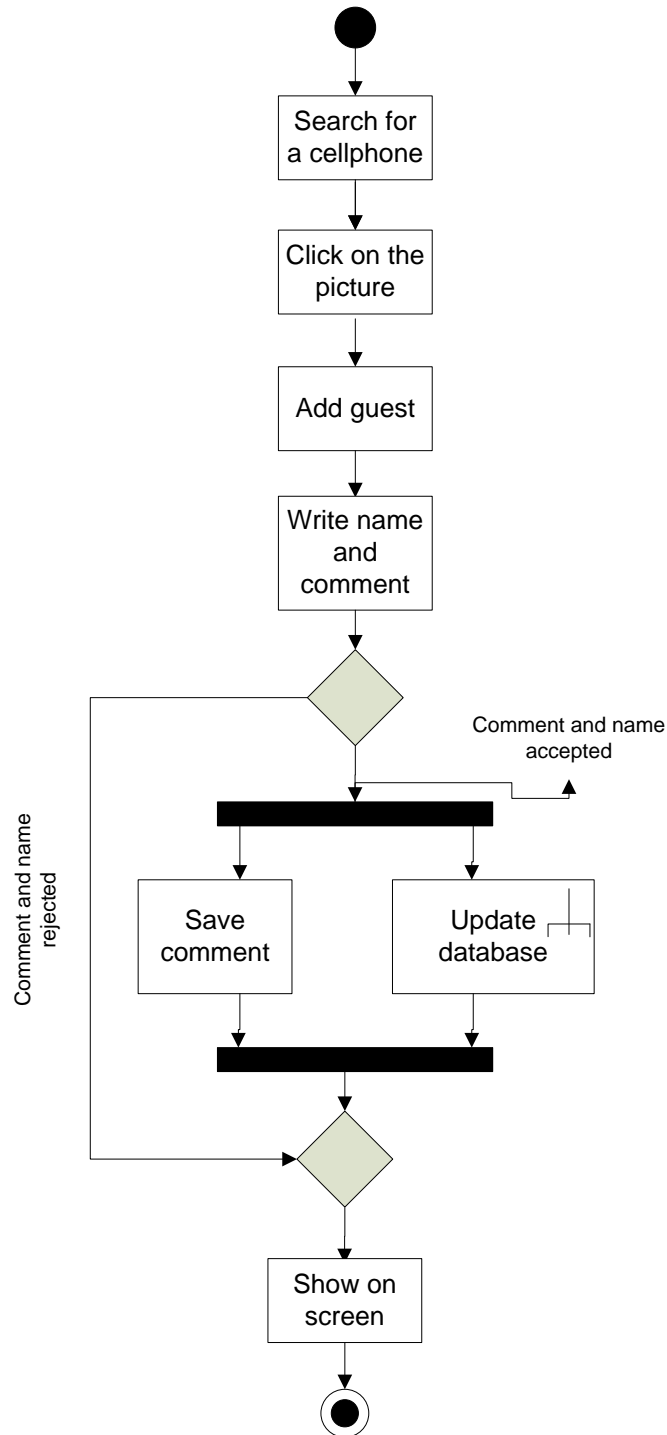

The user can use this toolbar to navigate through the webpage  
Diagram 1.1(Figure 1)

### 3.1.2. Show cell phone diagram

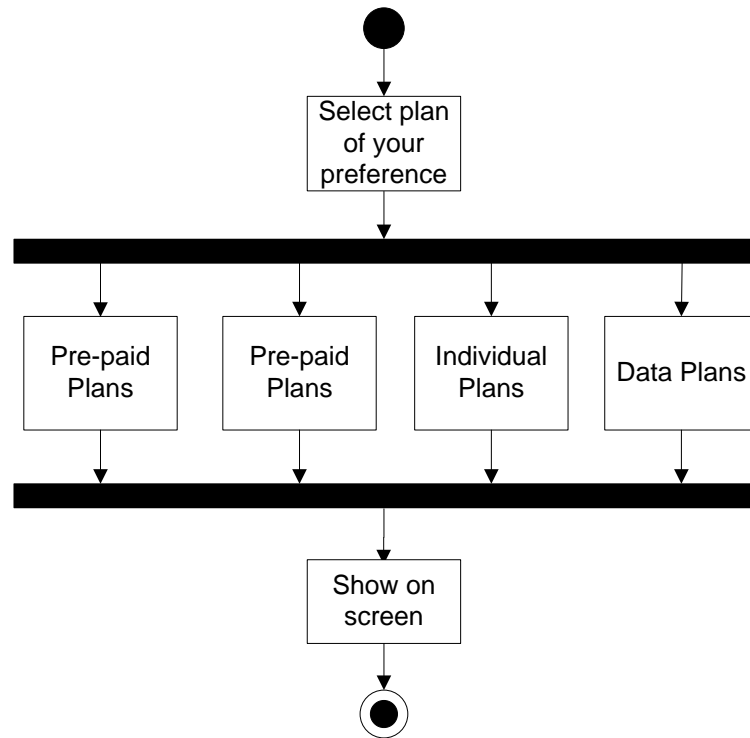

How the user get to see the available cell phones  
Diagram1.1.1.1 (Figure 1.1)

### 3.1.2.1. Write comments diagram

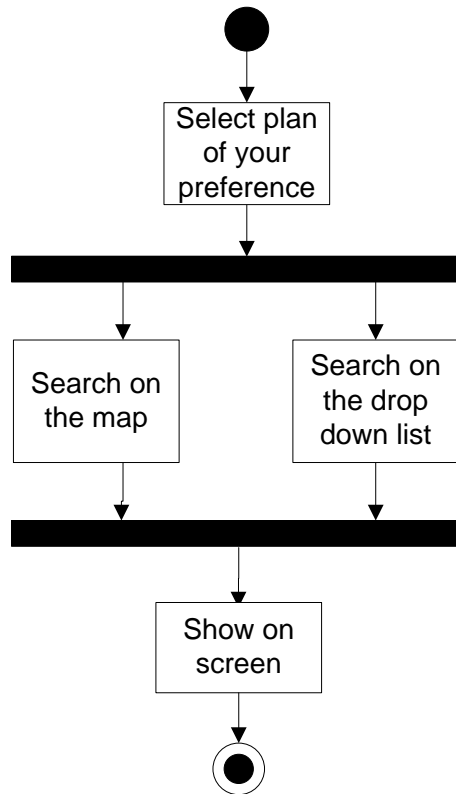

How the user is going to write comments about cell phones  
Diagram 1.1.1.2 (Figure 1.1)

### 3.1.3. Cell phone plans

How the user get to see the available cell phone plans  
Diagram 1.1.2.1 (Figure 1.1)

#### 3.1.4. Kiosk info

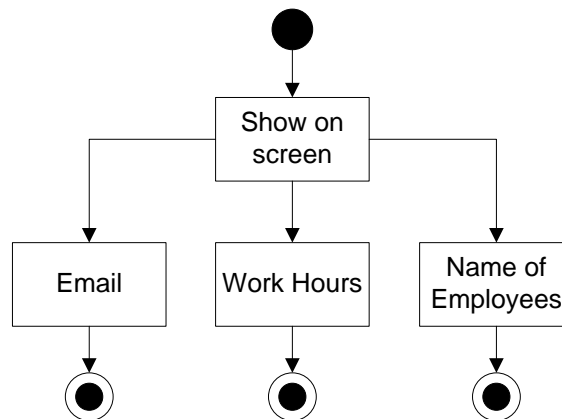

How the user get to see kiosk info  
Diagram 1.1.3.1 (Figure 1.1)

### 3.1.5. Available products

How the user get to see the available products  
Diagram1.1.4.1 (Figure 1.1)

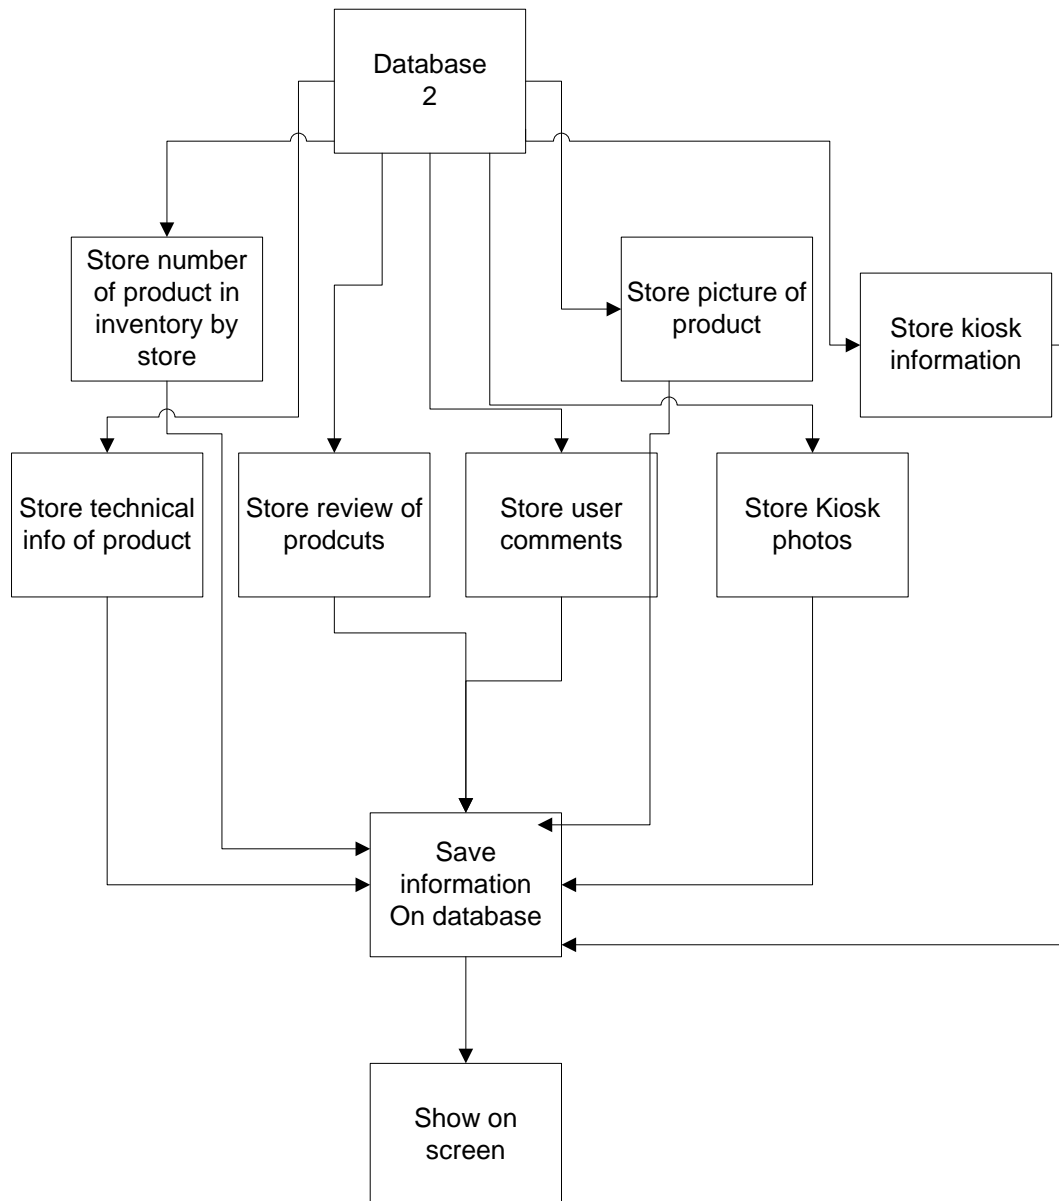

### 3.1.6. Contact us

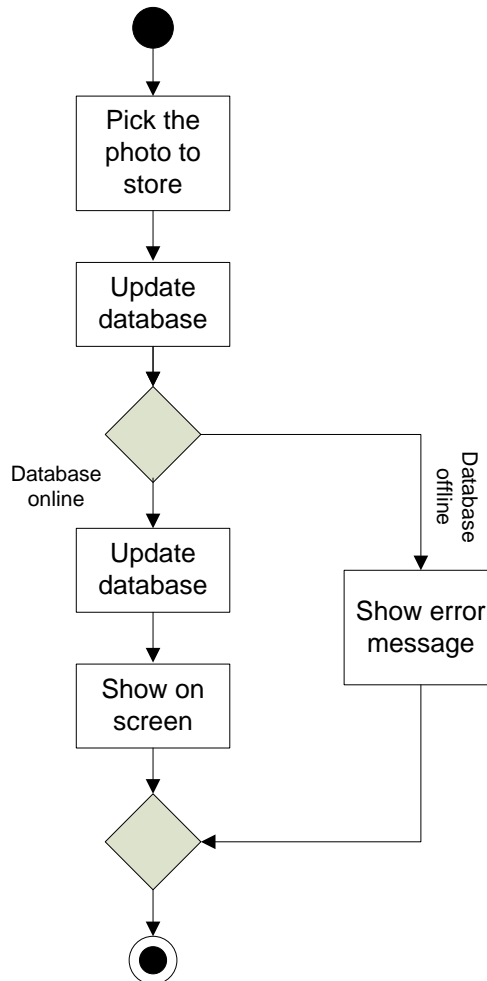

How the user get to see the contact us  
Diagram 1.1.5.1 (Figure 1.1)

### 3.2. Database Activity Diagram

#### 3.2.1. General Database Diagram

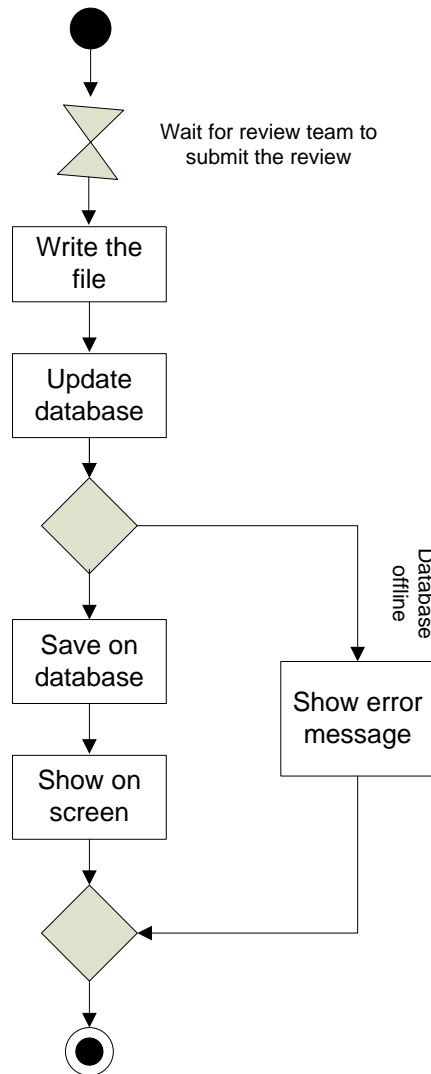

### 3.2.2. Store picture of product

How the webmaster get to store picture of the product in a database  
Diagram 2.1 (Figure 2)

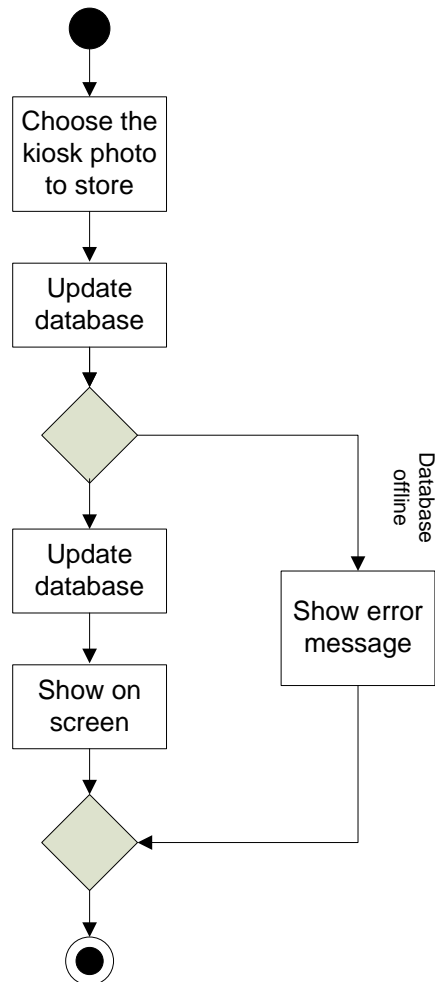

### 3.2.3. Product Review

How the webmaster get to store the review of the products  
Diagram 2.2 (Figure 2)

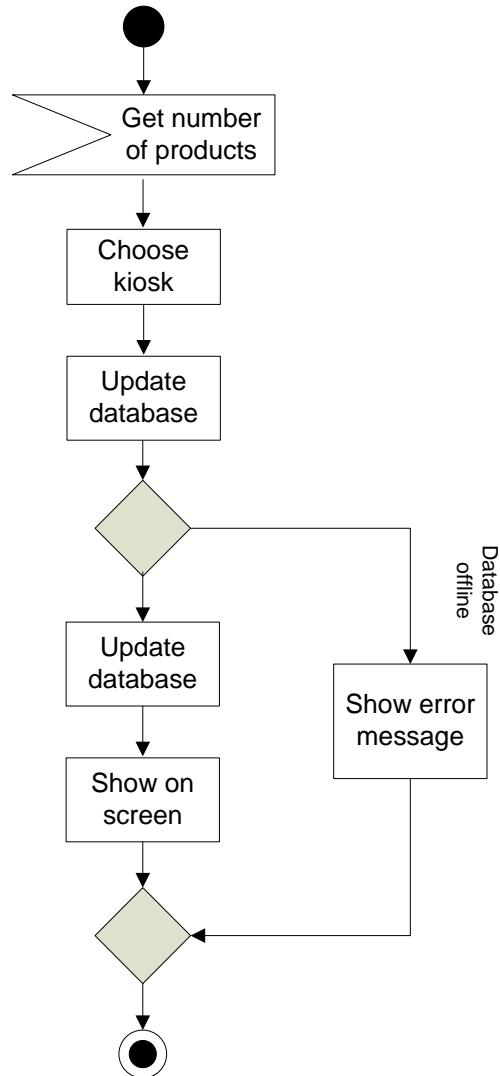

#### 3.2.4. Kiosk Photos

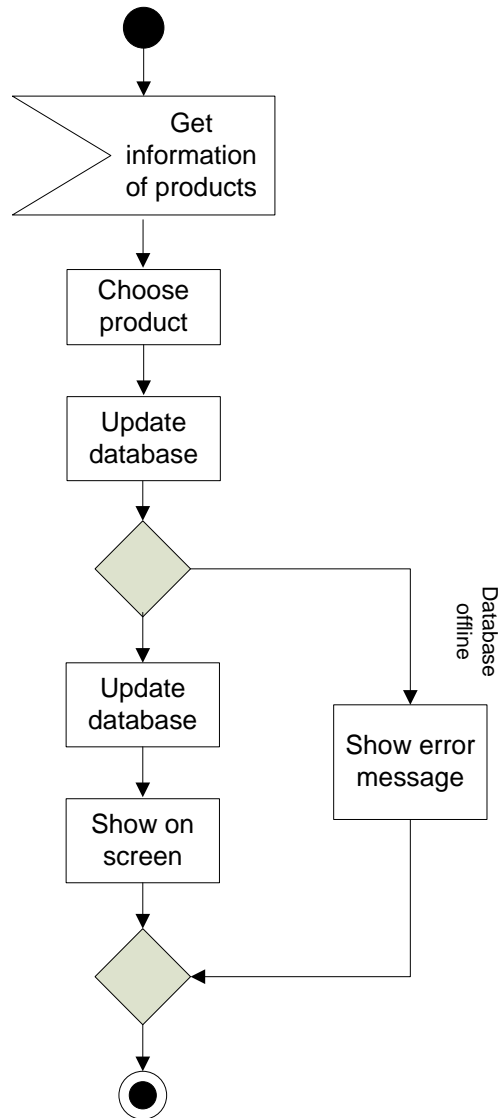

How the webmaster get to store the kiosk photos in a database  
Diagram 2.3 (Figure 2)

### 3.2.5. Number of Products

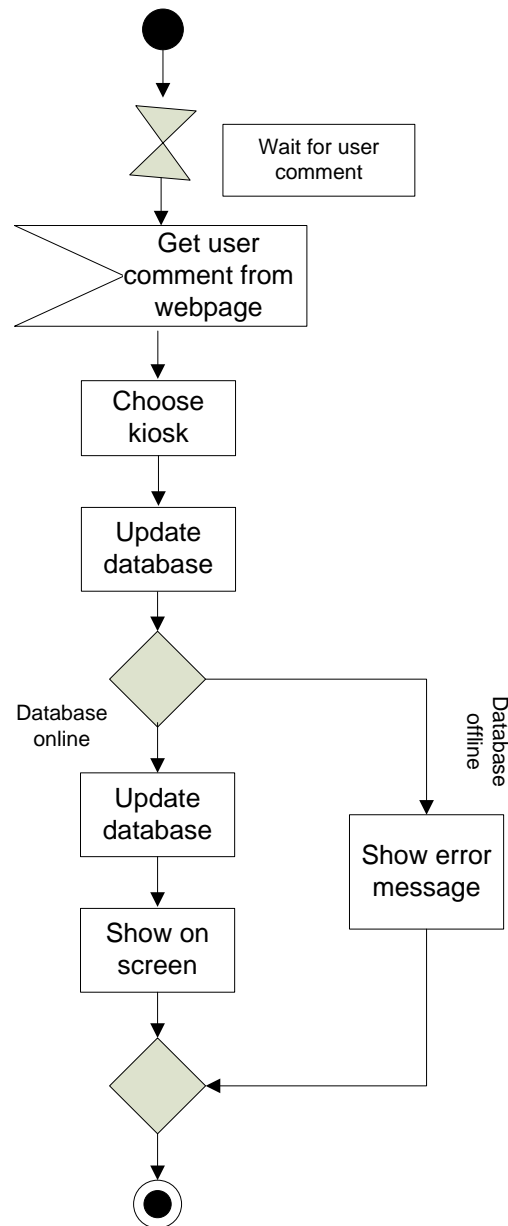

How the webmaster store the number of products by store  
Diagram 2.4 (Figure 2)

### 3.2.6. Product Info

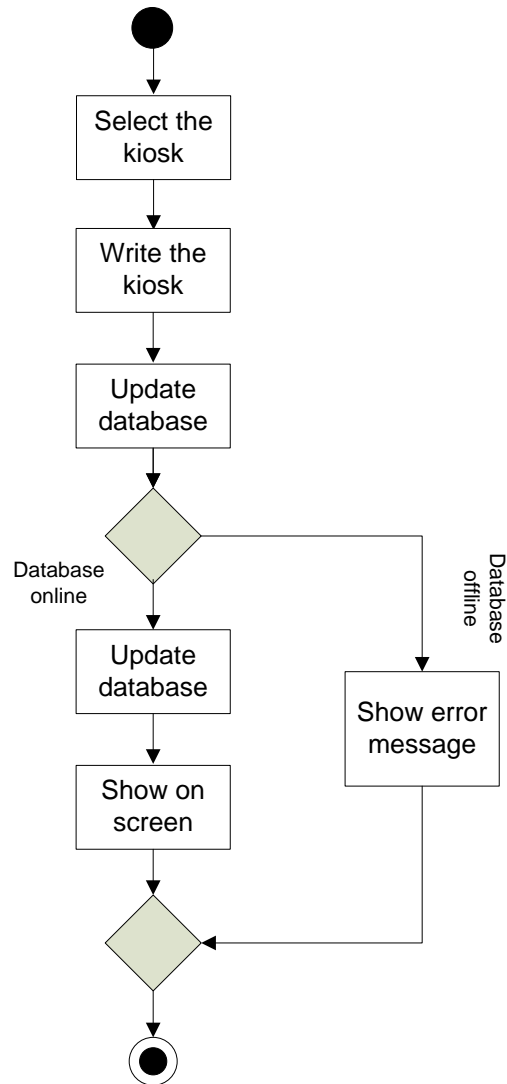

How the webmaster get to store the info of the products in a database  
Diagram 2.5 (Figure 2)

## 3.2.7. User Comments

How the webmaster get to store the user comments in a database  
Diagram 2.6 (Figure 2)

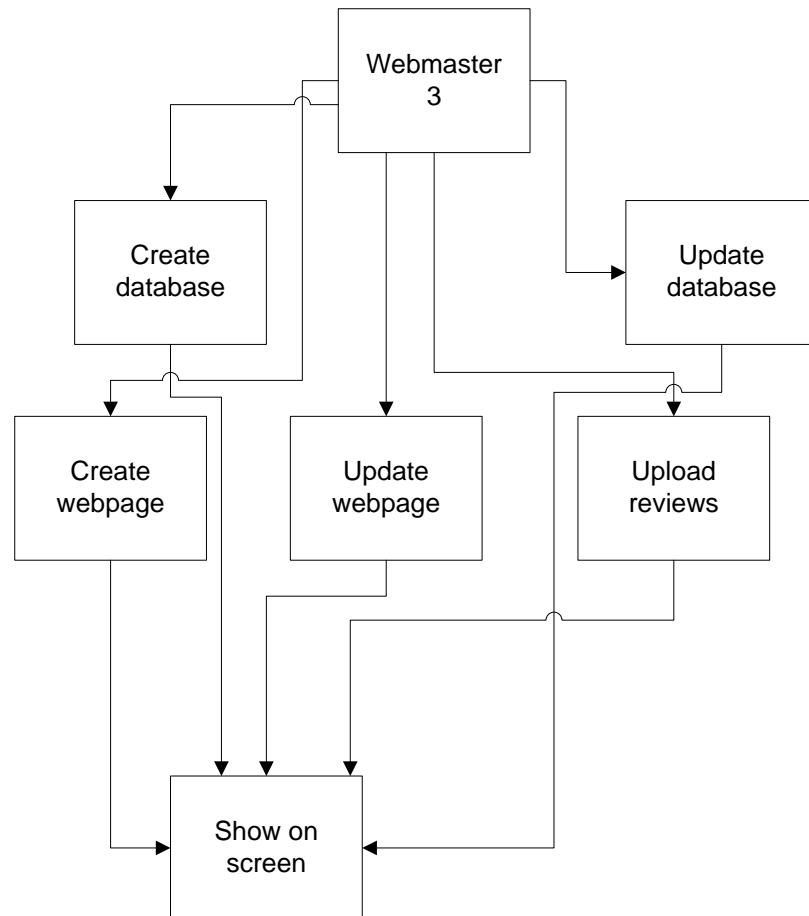

## 3.2.8. Kiosk info

How the webmaster get to store the kiosk info in a database  
Diagram 2.7 (Figure 2)

### 3.3. Webmaster Activity Diagram

#### 3.3.1. Webmaster General Diagram

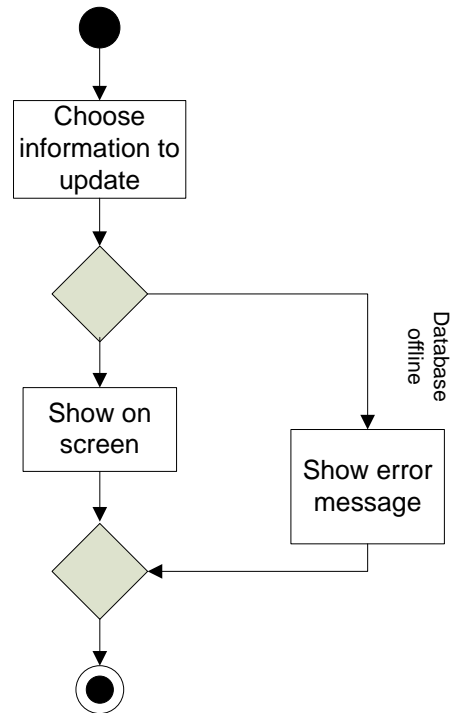

## 3.3.2. Create Database

How the webmaster is going to create the database  
Diagram 3.1 (Figure 3)

## 3.3.3. Update database

How the webmaster is going to update the database  
Diagram 3.2 (Figure 3)

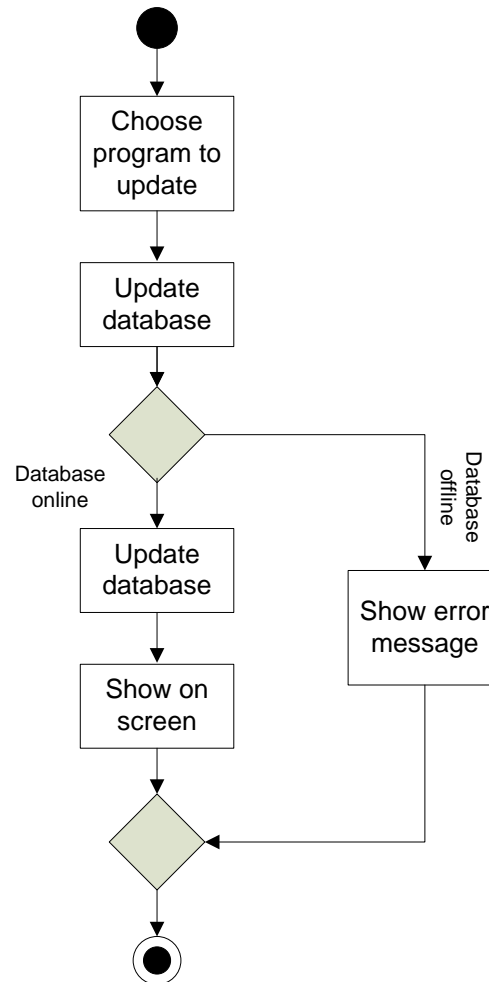

## 3.3.4. Create Webpage

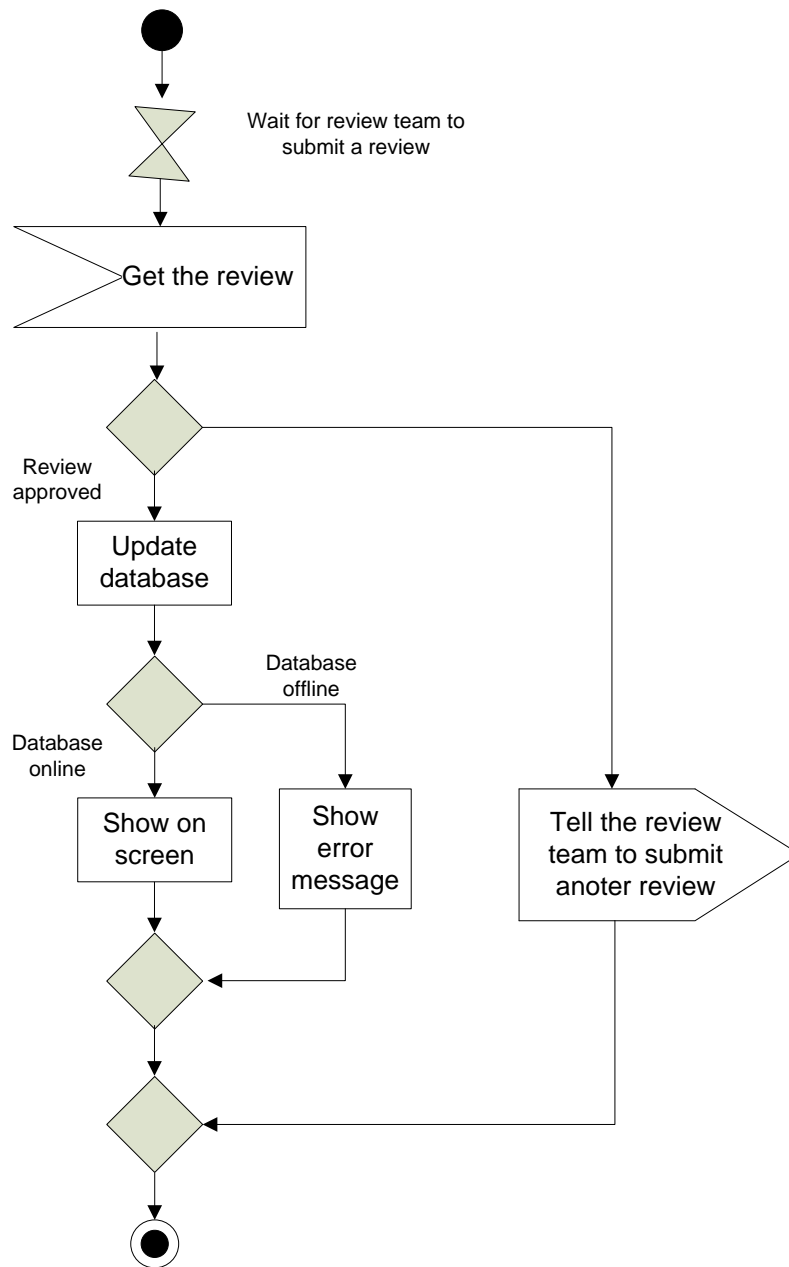

How the webmaster is going to create the webpage  
Diagram 3.3 (Figure 3)

## 3.3.5. Update Webpage

How the webmaster is going to update webpage  
Diagram 3.4 (Figure 3)

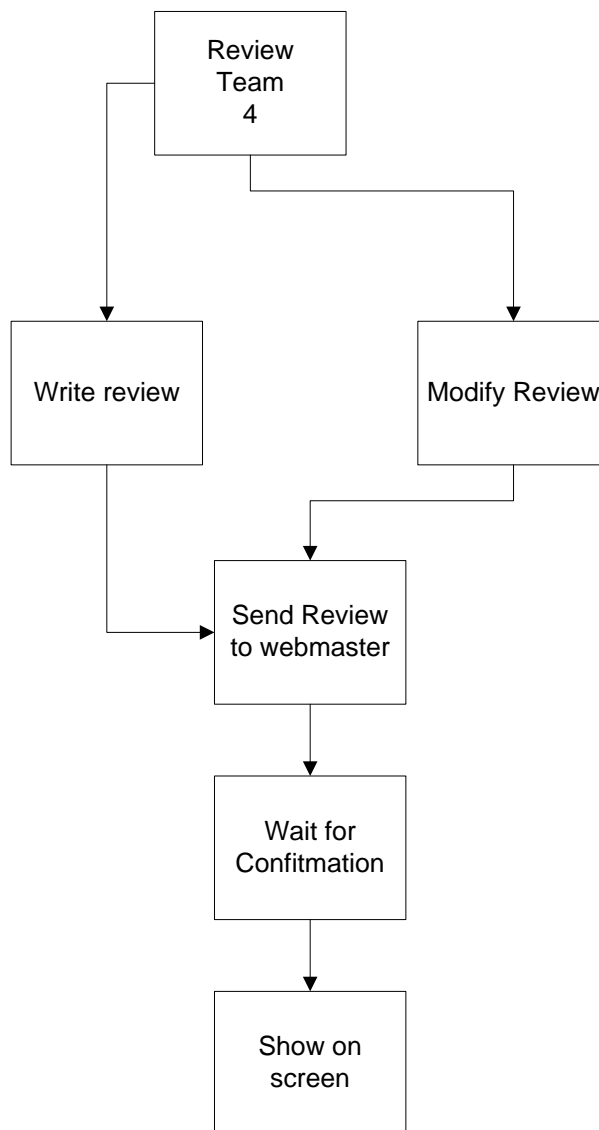

## 3.3.6. Upload reviews

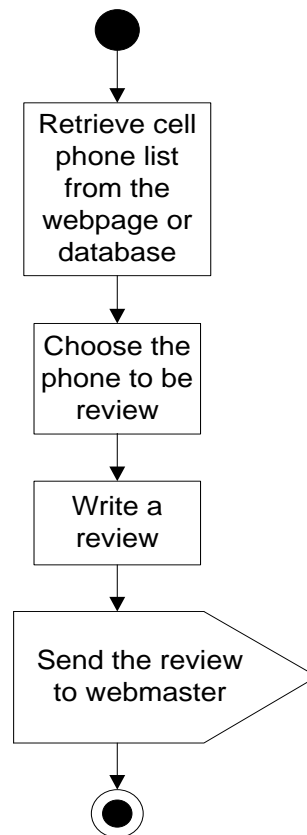

How the webmaster is going to upload the reviews to a database  
Diagram 3.5 (Figure 3)

### 3.4. Review Team Activity Diagram

#### 3.4.1. Review Team General Diagram

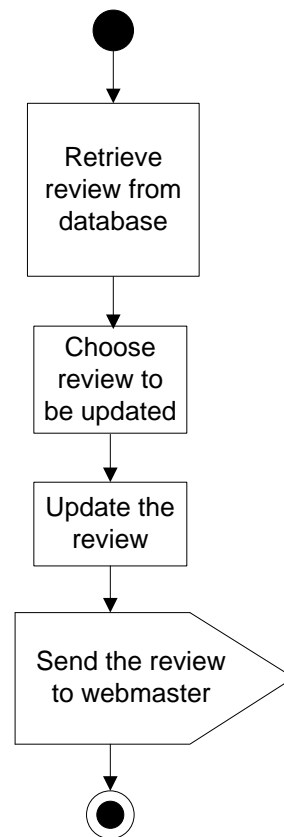

## 3.4.2. Write Review

How the review team writes the review about a cell phone  
Diagram 4.1 (Figure 4)

## 3.4.3. Modify Review

How the review team is going to modify a certain review  
Diagram 4.2 (Figure 4)

## 5. Detailed Design

## 5.1. Customer Detailed Design

Customer
+getPlan ( in type:string [1]= "1" ):Plans +getKiosk ( in KioskName:string [1]= "Caguas1" ):KioskInfo +addGuest ():void +getProduct ( in model:string [1]= "Curve 8520" ):Product +getReview ():ReviewTeam

## 5.2. Plans Detailed Design

Plans
- minutes: string[*] = " " - prices: string[*] = " " - sms: string[*] = " " - Id: string[*] = " " - roaming: string[*] = " " - mms: string[*] = " " - category: string[*] = " "
+addPlan ():void

## 5.3. PlanList Detailed Design

PlanList
-plan:Plans [4]= " "
+getPlan ( in category:string [1]= "1" ):Plan

## 5.4. KioskInfo Detailed Design

KioskInfo
- kioskName: string[*] = " " - kioskLocation: string[*] = " " - kioskPhone: string[*] = " " - kioskEmail: string[*] = " " - inventory: string[*] = " " - kioskPicture: string[*] = " "
+addKiosk ():void

## 5.5. KioskList Detailed Design

KioskList
-kiosk:KioskInfo[1..*]= “ ”
+getKiosk ( in kioskName: string [1]= “1”):KioskInfo

## 5.6. Guest Detailed Design

Guest
- comments: string[*] = “ ”
- date: string[*] = “ ”
- time: string[*] = “ ”
+addGuest():void

## 5.7. GuestList Detailed Design

GuestList
-guest:Guest[*]= “ ”
+getGuest ():Guest

## 5.8. Product Detailed Design

Product
- brand: string[*] = “ ”
- model: string[*] = “ ”
- totalQuantity: string[*] = “ ”
- kioskQuantity: string[*] = “ ”
- price: string[*] = “ ”
+addProduct():void

## 5.9. ProductList Detailed Design

ProductList
-product:Product[*]= “ ”
+getProduct(in model:string [1] = “Curve 8520”):Products

## 5.10. Record Detailed Design

Record
<ul style="list-style-type: none"> <li>- whoEdit: string[*] = " "</li> <li>- date: string[*] = " "</li> <li>- time: string[*] = " "</li> <li>- placeTheReview: string[*] = " "</li> </ul>

## 5.11. Edit Table Detailed Design

EditTable
<ul style="list-style-type: none"> <li>+<u>addTuple</u>():void</li> <li>+<u>removeTuple</u>():void</li> <li>+<u>renameTuple</u>():void</li> </ul>

## 5.12. AddIngo Detailed Design

AddInfo
<ul style="list-style-type: none"> <li>+<u>addNewInfo</u>():void</li> <li>+<u>modifyInfo</u>():void</li> </ul>

## 5.13. Database Detailed Design

Database
<ul style="list-style-type: none"> <li>+<u>storePlanList</u>():void</li> <li>+<u>storeKioskList</u>():void</li> <li>+<u>storeGestList</u>():void</li> <li>+<u>storeProductList</u>():void</li> <li>+<u>storeReviewList</u>():void</li> <li>+<u>retreivePlanList</u>():void</li> <li>+<u>retreiveKioskList</u>():void</li> <li>+<u>retreiveGuestList</u>():void</li> <li>+<u>retreiveProductList</u>():void</li> <li>+<u>retreiveReviewList</u>():void</li> </ul>

## 5.14. ReviewTeam Detailed Design

ReviewTeam
<ul style="list-style-type: none"> <li>-review: string[*] = " "</li> </ul>
<ul style="list-style-type: none"> <li>+addReview():void</li> </ul>

## 5.15. ReviewList Detailed Design

ReviewList
-review:ReviewTeam[*]= “ ”
+getReview():ReviewTeam

## 6. Detailed Data Design

## 6.1. Customer Detailed Data Design
